Miracle on Main Street

Just like decorating the tree, or hanging up the stocking, the gay and friendly Christmas Seals have become part of the Yuletide ritual in millions of homes throughout America.

They're Santa's biggest bargain—because they give so much for so little.

They give added protection to family, friends, and the entire community against tuberculosis. And since 1904 they have helped to spare more than 100,000 lives a year.

You can help Santa help you—by supporting this once-a-year appeal for the year-round program of prevention and control carried on by the National Tuberculosis Association and its affiliates.

So, please, buy and use Christmas Seals—send in your contribution, today.

Odd Fellows To Have A Ninety Day Open Charter

Glades lodge of Odd Fellows held a well attended meeting on the evening of December 8th, and preparations made for the opening of a membership drive following the first of the year. The lodge has been granted an open charter period by the Grand Master for a period of ninety days.

Nomination of officers were made and election will take place on the night of December 22nd. District Deputy Grand Master Harold Kirman and several members of West Palm Beach lodge were visitors, all of whom made short addresses. Recently a session was held in Columbia, S. C., for Odd Fellows and Rebekahs of North and South Carolina, Georgia, Alabama, Tennessee and Florida, when the Southeastern State Odd Fellow Association was formed, for the promotion of Odd Fellowship. Ten delegates were present from the Florida jurisdiction, and "Major" Myers of Jacksonville was named as Florida's vice-president, in charge of promotional work in this state area.

License Tag Offices Are Established For Glades Area Patrons

For the convenience of car, and truck owners of the Glades, County Tax Collector Sleton Sprout has opened two tag agencies in Belle Glade and Pahokee.

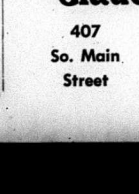

In Pahokee, the agency will be with the Lakeshore Motor's office on North Main street; and in Belle Glade, the same company's office at its sales yard on West Avenue A.

Old tags will not be legal after December 31st, so that new tags will be necessary on equipment by that date. Mr. Sprout urged early purchases to avoid a dead line rush as is customary each December. Fleet owners are requested to make their request early and at one time to facilitate the work of the agencies.

Candy-Making Holidays

Making candy for the holidays is one of the pleasant ways of looking the Christmas spirit. And, too, it accomplishes two things: it gives candy that can be packaged in pretty boxes and tied with Christmas ribbons and sprigs of holly. Or, for a Christmas gift that has lasting value, candies may be wrapped in colored foil and arranged in a china or milk glass candy jar.

Of course, chocolate candy, to be at its best, should not be made up too far in advance, so schedule your candy-making day as near the wanted date as possible. Also, to protect the candies from drying out or breaking, wrap them individually in wax paper or aluminum foil. Be sure that they have cooled completely before wrapping; and be doubly sure to have some of your own homemade candy in the house for the holidays.

Honey Almond Drops

1 package (8 squares) dot
1 cup sweetened condensed milk
1 cup heavy cream
1 teaspoon almond extract
1 teaspoon salt
Heat chocolate over boiling water until partly melted. Add milk, cream, almond extract and salt. Blend well. Drop from teaspoon on waxed paper. While still soft, roll half of a blanched almond in top of each drop. Chill until firm. Makes about 5 dozen small drops.

BEAN CITY NEWS

Mattie Mae Youngblood, Reporter

Sunday was a high day at Union Baptist Church. Rev. E. W. Kenny, Pastor. The day began with a live Sunday School at ten o'clock. Then the regular preaching services followed. The singing by the choir was superb. Next Service day the ushers hope to have their badges and will serve all services. The church and society are highly pleased with services rendered by Rev. Kenny and his faithful companion, Sister Kenny.

The School gave its Christmas Program Thursday evening. All students participated in the program. The tree was beautifully decorated with lights and gifts for all. Santa was indeed good to us. We wish to thank the Belle Glade Herald, Royal Stores, Wells & Armstrong, The Roadman Store, and Glades Appliance for helping to make Merry Christmas for Bean City School.

The Junior Red Cross meeting at Lake Shore School was indeed enjoyable. Bobby Cato, Dorothy McBair, Bernice Jones and Robert Betha represented Bean City with our sponsor, Mrs. Ora D. Lee. After a spicy program, which ended with a delicious repast, we inspected the beautiful building which was a great inspiration for us. School closes for holiday Dec. 16 through January 2nd.

Consumers' Problems

By Mrs. Ora D. Lee

Mrs. Lee has done special research on this problem at Tusculum Institute, Asheville, Tennessee Institute, Virginia and Miami University, Oxford, Ohio.

Basic Foods And Vitamin Content

Fats and sugars are primary sources of fuel. Milk fat whether cream or butter, is rich in vitamin A and this is the source of high value for other natural food fats. Fat adds to the palatability of food and extends the range of culinary products greatly. It tends to retard digestion somewhat, giving a feeling of satisfaction after eating, but if used in excess, may delay digestion too much.

Sugars and other sweets were their places in the diet to the popular of their flavor. Contributing calories only, sugar can be replaced except as regards flavor, and the part it plays in various culinary operations. Waxes imply greater moderation as to quality and quantity, a concentrated vegetable juice is rich in calcium and iron.

We are always assured of a well balanced diet when we include an abundance of protective foods in our diet which include milk, eggs, meat, poultry, fish, tomatoes, citrus fruits, leafy vegetables green and yellow.

The possibility of having more protective foods makes the thought of planning diets.

The Plus Touch

By Betty Barclay

"CHOCOLATE" is a name that can take its place in the deluxe class of desserts any time, but what a bit of grand orange and cream can do in adding a "plus" to a favorite.

will make you miss your previous brownie is pleased to give a nice cream chocolate cream pie to the whipped cream.

Orange Chocolate Cream Pie 2 squares unadorned chocolate; 2 eggs; 1 cup sugar; 5 table-spoons flour; 1 teaspoon salt; 2 cups milk; 1/2 cup cream; 1/2 cup butter; 1 teaspoon vanilla; 1/2 cup fresh fruit.

1/2 cup cream, whipped; 2 table-spoons unadorned chocolate; 2 eggs; 1 cup sugar; 5 table-spoons flour; 1 teaspoon salt; 2 cups milk; 1/2 cup cream; 1/2 cup butter; 1 teaspoon vanilla; 1/2 cup fresh fruit.

Add chocolate to milk and beat in double boiler. Then chocolate is melted, beat with rotary mixer, sugar, flour, and salt. Add gradually to chocolate mixture and continue cooking 10 minutes, stirring constantly. Pour small amount of mixture over pie.

stirring constantly. Pour small amount of mixture over pie. Double boiler and cook 2 minutes longer. Add butter and vanilla and cool. Turn into pie shell. Chill 15 minutes. Cream lightly whipped edge of pie to form a 1-inch border. Sprinkle cream with ground orange rind.

without cost restriction a real delight. There is no end to the pleasing combinations which can be worked out in planning meals to include the above basic foods.

We shall here consider the vitamin content of these basic foods. First we shall consider vitamin A.

Thirty years ago the word vitamin was just coming into use. Today it is applied to those substances which occur in minute quantities in food and yet produce profound and specific physiological effects. Some writers say they are to be likened to ignition sparks of the automobile; they are also like the vital hormones furnished to the body by the glands of internal secretion, such as thyroid, pituitary, cortex, parathyroid, etc., each circulating in the blood in exceedingly small amounts, but nevertheless powerful in its control of some function indispensable for life, health, and growth.

It has now been established that vitamin A in the livers of salt water fish is identical with that found in livers of fresh water fish, however they are alike functionally.

Vitamin A helps to resist infection. It is at all times significant in the resistance to disease and the development of a high degree of physical vigor.

Since 1925 a great deal of experimental evidence has been obtained regarding the character of the changes which lack of vitamin A induces in the various tissues of the body and it has become very clear that epithelial cells found in the skin and in mucous membrane in all respiratory tract, the digestive system, the genitourinary system, the ducts leading from all sorts of glands and the inner surfaces of many glands are very quickly altered by deficiency of vitamin A.

Vitamin A is a definite factor in growth. Xerophthalmia, a disease of the eye is caused by lack of the vitamin. In this disease the lachrymal gland ceases to function; the eyeball becomes dry and bacteria quickly begins to grow. Soon the swollen, sticky and scabby lid completely closes. Night blindness, a common cause of many accidents is also caused by lack of vitamin A in the basic diet. This was first observed in Brazil in 1883 when sailors were unable to see on returning from their work after sunset, although strangely enough, they had no difficulty in setting out the next morning.

is impossible without the external stimulus furnished by ultra-violet light. (Ref: Rose's Foundation of Nutrition) The search for vitamin A in foods went forward by leaps and bounds. Not only fish liver oils, eggs, and butter, but also green olive leaves and yellow parts of plants prone to be excellent sources. Carrots and sweet potatoes are found to be rich sources of vitamin A while corn, wheat, and rice furnish practically none. An experiment, formed by Prof. H. Steenbock at the University of Wisconsin found that yellow corn could be used as the only source for vitamin A in the diet for young rats with excellent results, while white corn fed to another group of rats proved deficient in vitamin A. He extracted some of the pigment of corn known as carotene, crystallized it, and found that the crystals had vitamin A activity.

LAKE SHORE ELEMENTARY SCHOOL NEWS

By Prof. Charles M. McCurdy

Dramatic Club

The Dramatic Club, second series of programs, an operetta entitled "Christmas High Jinks" was met with success last Monday evening when many parents, teachers, and friends, assembled in Lake Shore Auditorium.

The characters in the production were as follows: Jack Gaud, Joe Plummer, Amy Fitting, Annie Pearl Harris, Ida Wood, Helen Wright, Slat Whitney, David Kendall, Miss Jarvis, Margaret Devos, Penelope Deane, Clarence Jasper, Lillith Lister, Christine McCants, Peg Hudson, Gloria Smith, Norman Kent, Charles Chestnut, Bill Fisher, Thomas Bennett, Barrett, Marion Sherrod, Russ Russell.

The students of the Deane Memorial school were decorating their assembly hall for their annual Christmas High Jinks, a play of the month. The proceeds of which went to aid a worthy charity. Lillith Lister, a wealthy pupil, insisted that the money be turned over to her mother's pet cause, but Miss Jarvis, the popular school nurse, hoped that the local clinic with the recipient of the provided operations for needy persons.

The coming of Xmas brings about joyousness to us, even a poor but popular girl, her brother who is an optimist, when because of his blindness. Her father, who suffered from annesia, had been missing a year that Christmas. Although Wren was sad, she continued decorating for the Christmas High Jinks. Her worries soon passed over and all were happy again and returned to their decoration.

The Dramatic Club wishes to express their sincere appreciation to the parents, teachers, and friends who shared in making the play a success. For you we wish a Merry Xmas and a Happy New Year.

4-A News The 4-A class held its regular meeting with the president Joe Louis Phinazez presiding. Plans for the New Year were discussed. During the meeting, the students suggested to have a teacher and a parent of the month from Lake Shore Elementary. Miss Annie Mae James was chosen.

theatrical cells found in the skin and in mucous membrane in all respiratory tract, the digestive system, the genitourinary system, the ducts leading from all sorts of glands and the inner surfaces of many glands are very quickly altered by deficiency of vitamin A.

Vitamin A is a definite factor in growth. Xerophthalmia, a disease of the eye is caused by lack of the vitamin. In this disease the lachrymal gland ceases to function; the eyeball becomes dry and bacteria quickly begins to grow. Soon the swollen, sticky and scabby lid completely closes. Night blindness, a common cause of many accidents is also caused by lack of vitamin A in the basic diet. This was first observed in Brazil in 1883 when sailors were unable to see on returning from their work after sunset, although strangely enough, they had no difficulty in setting out the next morning.

PRETTY AND PERKY SALADS FOR CHRISTMASTIME MENUS

By BETTY BARCLAY
Wintertime meals need a hint from the prosaic type of foods. A suggestion for the holiday season is a salad variation made from creamy white Washington Bartlett pears teamed with asparagus for a picture dish easy to prepare. The salad is made from products many homes have on hand and can be assembled in just a few minutes. For an individual serving you will need:

Pear-Cranberry Salad
1 Washington Bartlett pear half
1 tablespoon cranberry sauce
Sliced greens — celery, lettuce or watercress
French dressing or mayonnaise
On the salad greens place a canned Washington Bartlett pear half, cut side up. Garnish with cranberry sauce, placing a couple berries in the core cavity and arranging the sauce around the pear attractively. Top with French dressing or mayonnaise.
Simple, yet it offers a color appeal that moves the salad into the holiday type salad to complete roast turkey, roast ham or other holiday menu.
Bartlett pears are the best known variety of canned pears and are creamy white in color and have a sugary taste which makes them especially adaptable for salads. They are free from seeds, which gives them pleasing appearance.

POWER COMPANY GAINS 30,000 STOCKHOLDERS

Florida Power & Light Co.'s common stock will be distributed to some 30,000 people located in all of the 48 states, the District of Columbia, U. S. Possessions, Canada and many foreign countries, as the result of an order of the Securities and Exchange Commission which was upheld by the U. S. District Court for the Southern Dis-

trict of New York last Monday. The 2,450,000 shares of Florida Power & Light Co. common stock has been owned entirely by the American Power & Light Co. since originally issued and the distribution will be made to owners of the preferred and common stocks of that company.

While the date for distribution has not been set, it is anticipated that it may take place early in 1950.

In a letter addressed to Amer-

ican Power & Light stockholders residing outside Florida, Mc Gregor Smith, FPA's president points out that Florida is "a sound state with a wonderful future."

"You will find here," Smith's letter continues, "no punitive laws against business, no state income tax, no state property tax, no duplicate inheritance tax."

It invites them to see Florida and it concludes, "You, too, like many thousands of others, may then decide to enjoy a longer and fuller life by making Florida your home."

In a similar letter addressed to those stockholders who reside in Florida, many of whom are customers of the Company, Smith invites their observations "of the good things we do so that we may do more of them, and of the not-so-good things we do so that we may do less of them."

Distribution of the Florida Company's stock will divorce it entirely from American Power & Light Co., which is a registered holding company in the Electric Bond and Share Co. system.

Florida Power & Light Co.'s board of nine directors will then be responsible to the new stockholders for the company's operation, management, and future development. These directors are:

F. G. (Pat) Bailey, veteran Miami civic leader, merchant and president of Bailey-Millam Hdw. Co.; Benton W. Powell of Sarasota, president of the Palmer National Bank & Trust Co. and vice-president and Florida manager of the president

of the Florida State Bank; Wm. A. Shands, Gainesville businessman, grocer and general manager of the Packer Corporation; Al R. Nielsen, West Palm Beach businessman and civic leader and president of Al R. Nielsen Co.; Wm. R. Kennan, Jr., of Lockport, N. Y., long-time associate of Hiram M. Flagler, who was active in the development of the Flagler interests in Florida and at present taking part in the administration of these interests and other businesses; Elmer Ericson, Tampa, N. J. businessman, actively associated with several activities including president and director of S. W. Childs Management Corporation.

The remaining three directors are officers of Florida Power & Light Co. and include Mc Gregor Smith, president; H. E.

Do You Want To Rent An Apartment Or Rent Or Buy A House In Glades?

It will help you to secure proper housing if you will answer the questions below!

Experts from the Insurance and other companies who have money to lend on new construction—individual homes, apartments and commercial construction—find it difficult to arrive at any estimate of probable needs of the community for housing and new building.

Real estate men, the Chamber of Commerce and your City Authorities have their estimates received with a sympathetic grin, because the "Home Office" refers to the 1940 census.

In an effort to convince these boys THAT THE GLADES IS IN NEED OF HUNDREDS OF LIVING UNITS, as well as commercial buildings, the following information is needed:

How many in family? _____ Gross yearly income members

of family who contribute towards expenses \$ _____

Year round resident? _____ If not, how many months in the

Glades each year? _____ Type of Building _____

Residence, Apartment—Buy or Rent? _____

If want to rent at present, do you expect to buy in future? _____

How many sleeping and other rooms wanted? _____

What type of construction do you want? _____ Block or Wood

Do you require mortgage money? _____ Yes or No

What Glades community do you wish to live in? _____

If sufficient demand is developed by this questionnaire it is possible to secure long time financing for 80 to 90% of value of house and lot, 50 to 60% of commercial buildings.

You are invited to go fully into your desires or ideas about housing or commercial buildings.

The Industrial Committee reported that some machinery was on the grounds to start construction on the new Livestock market and that surfacing by rock would start Thursday. This represents culmination of one of our long sought after accomplishments and the Industrial Committee is continuing with plans to also secure the establishment of meat processing plants here.

The Wholesale and Retail

Committee reported the initiation of a program to sponsor a large fair which would be a real credit to the community and satisfy the desires of different civic groups, who need to raise funds, with the hope that such a plan would eliminate requests by these groups for the holding of carnivals which are admittedly not good for a community and which materially affect the merchants of the city.

On recommendation of Di-

Plans were made to contact DeWitt Upham, supervisor of registration, and the County democratic Committee for the purpose of securing their aid in securing a more complete voters registration for the Belle Glade Area.

This place has made it a point not to list property for sale more than its true value. The reason is that the people of the Gloucester tropical Azalea homeowning community are getting in at a low cost financed through F.H.A. Since most of the furniture is new, the home will be built in, the actual home ownership is enlarged. In addition, the home is sold with the home-ownership by providing the furniture which other wise would have to be obtained separately.

For further information on this property, contact the developer in home construction, phone Chester R. 5-5448, 1000 Mart, West Palm Beach 5548.

that sounds better than this upheaving, loud and, have it in place in the new home, ready for your arrival. They have people who are accustomed in the handling of good furniture, and they have people who understand just how to take care of them.

In this review we desire to call the attention of the people to the fact that this is a service and to say that they are always on the lookout for new features that make it more complete.

That's right! When you must walk on the highways in rural or suburban areas, always walk on the left side of the road —facing traffic.

There is plenty of reason for this. Last year, for every person who was facing traffic there were killed walking with traffic. 24 Floridians lost their lives and 32 were injured walking the wrong way instead of facing oncoming cars. For every daytime fatality there were 4 deaths during the dark and dusk hours. Six more people lost their lives merely standing in the road.

Never assume you are safe when walking on the highways —many times you are hard to see. Then, too, the questionable driver is still on the road. In 1966, the number of his victims increasing. In the first six months of 1966, 78 hit-and-run accidents were recorded in Florida and 16 were killed by these car cowards.

Remember for your own sake — on highways, walk to the left facing traffic —be alert to danger —be alive tomorrow.

Postmaster Farnall
Announces Office
Hours For Christmas Mail

In order to take care of all
patrons who are unable to mail
their parcels during the week
the post office will stay open
until 6:00 p.m. on Saturday,
December 17, and the parcel
post window will be open until
8 a.m. till noon on Sunday, De-
cember 18, according to post-
master Farnall.

In addition, beginning Mon-
day, December 19, stamps will
be on sale in the lobby of the
office for those who wish to
buy stamps only, and box rent
will also be payable the follow-
ing day, in the lobby.

It will be greatly appreciated
by the post office staff if
patrons who will be mailing a
number of letters, tie them with
addresses all faced one way
and hand them to the clerk on
duty in the lobby, instead of
depositing them in the letter
drop.

Due to the fact that Monday,
December 26 is an official holi-
day, the parcel post and gen-
eral delivery windows will re-
main open on Christmas eve
until 9:00 p.m. The public is
urgently requested to get their
parcels out of the office before
the closing deadline, and re-
frain from calling for additional
service, as most of the office
personnel would also like to
celebrate Christmas with their
families. There will be limited
service only on Christmas Day,
and the following day. Mail will
go out as usual.

Mr. Farnall also requests that
all box holders empty their
boxes periodically. With greet-
ing cards coming in more and
more each day, most boxes are
quickly filled, and if the boxes are
not emptied, additional mail
has to be placed on the ledge,
causing another delay, and dou-
ble work.

Fair Stock Bares
To Be The Finest
In All Southland

Work on the new livestock
building for the Florida State
Fair is moving along rapidly.
With fill being moved in and
steel going up this week, Fair
officials expect the building to
be completed in time for the
opening in January unless bad
weather should interfere with
the building program.

This new livestock building,
to be one of the finest in the
Southeast, will have an arena
seating 625 persons and a show-
ring 45 feet by 82 feet, where
the judging will take place.
The building will house 350
animals.

With the completion of the
\$85,000 livestock building pro-
gram, the structure will still be
only about two-thirds complet-
ed, as the fully completed build-
ing will be about 240 feet by 240
feet. Funds available permitted
only the construction of the
building as designed for the
1950 Fair.

This year for the first time,
livestock will be split, with
pure bred dairy cattle being
shown at first and pure bred
beef cattle the latter part of the
Fair. The Fair will be held from
Jan. 31 to Feb. 11.

Christmas Seal Returns
Reported As Slack And
Speedup Requested

Headquarters of the Palm
Beach Christmas Seal organi-
zation in making report of sale
to the end of last week, state
that sales show a decline over
last year at the same period.

Out of the 27,000 communica-
tions sent out, enclosing seals,
only around 4,000 have made re-
turn. Increased sales are neces-
sary if proposed enlargement
of work in the county for 1950
is possible.

Total receipts at the end of
the third week of the campaign
amounted to less than \$10,000.
Glades precincts reported as fol-
lows, Belle Glade, \$201; Pahokee,
\$155.50; South Bay, \$28;
Canal Point, \$40; Lake Harbor,
\$13; Chosen, \$10.

Seal sales in Belle Glade are
in charge of a committee com-
posed of Mrs. Frank Dooley,
Mr. W. C. Taylor and Amelia
Houston.

Dorothy May Wheeler, Field
Representative from the Florida

most counties."

State Employment
Office Has Many
Work Applicants

A decided upswing in unem-
ployment is observable in the
Glades area resulting from a
heavier than usual immigration
of seasonal job seekers and Jack
Frost's recent visit, according to
A. M. Larrimore, manager of
the Belle Glade office of the
Florida State Employment Ser-
vice. Since the November 27
frost numerous job seekers, es-
pecially vegetable harvest hands
and packing shed workers, have
migrated to the East Coast in
search of brighter work pros-
pects.

Currently there are 240 seek-
ing employment through the lo-
cal office, including 80 veterans
and 53 women. These applicants
are qualified to perform many
occupations including sales
clerks, farm hands, carpenters,

truck drivers, and casual labor-
er.

As the FSES office is an or-
ganization for service to the en-
tire community, Larrimore re-
serves employees to list job op-
portunities with the Employment Of-
fice regardless of kind or dura-
tion of job. Unemployed work-
ers whose residence is in the
area are also welcomed to regis-
ter for jobs. Job orders should
be phoned to 2931 and job seek-
ers should contact the local of-
fice at 109 S. Main Street.

Series Of Auto Accidents Occur On Last Sunday

A series of highway accidents kept the State Highway Patrol busy all day Sunday. A party of four negroes, Grace Wheeler driving, were enroute to their home in Miami Sunday morning. A tire blew out on Road 27 over the Palm Beach County line in Broward County, causing the machine to turn over three times. Three of them were given emergency treatment at the Belle Glade Hospital. The driver was the most severely injured, having a jaw broken, badly cut lip. Her husband had several fractured ribs and body abrasions.

A car occupied by Lee and Delmar Walls struck the rear of a car occupied by four In-mokalee negroes about 6:30 p.m. with such force that the front car was hurled through the air 105 feet and landed in a ditch. The accident occurred on the Belle Glade Pahokee highway adjacent to the Prison Farm.

Highway Patrolman Valton Shettrick, who investigated both accidents stated that Delmar walls suffered multiple head, face and neck cuts, when his head went through the windshield. Lee Walls, driver of the car, was hospitalized with a crushed knee and face lacerations. He will be held responsible for the accident as soon as able to leave the hospital. Patrolman Shettrick stated. The negroes, three women and one man, were also hospitalized.

South Bay PTA Makes Arrangements For Christmas The South Bay Parent Teacher Association met at the school

auditorium, on Monday evening. Mrs. Editha Eckman presiding in the absence of the president Mrs. E. W. McLeod.

Plans were made for the tree and treat for the children at the annual Christmas Entertainment to be put on by the school on Friday December 16 at 8 o'clock.

Mrs. C. E. Crichfield was named chairman on the committee to decorate the tree. Mrs. E. D. Dasher and Mrs. Raymond Hall were named to have charge of the treat for the children.

Principal Editha Eckman announced that the entertainment would be a play, "Christmas in Other Lands" with the pupils of various rooms portraying manners and customs of foreign lands in their Yuletide festivities.

The Junior High pupils put on the program for the PTA in the form of The Nativity Scene with appropriate Christmas Carols. Benny Prewitt and Judy Weathers gave a piano duet.

Calvin Peacock's seventh grade home room won the attendance prize for the month. Mrs. Eckman, Mrs. Ruth Murphy, Mrs. T. E. Weathers and Mrs. Margaret Hess were hos-

teses for the evening and serving refreshments to all present at the session.

Lake Harbor School Held its Xmas Party

The Annual Christmas program put on by the Lake Harbor School took place on Thursday evening, December 15 and school will close for the holidays on Friday, December 16.

The program consisted of two parts. The first part, a Christmas Overture was staged by the children of the first, second, third and fourth grades under direction of Mrs. Ella Prewitt and Mrs. Mary Alice Kendall.

The second part depicted the scene of the Nativity and was presented by the children of the fifth and sixth grades.

Santa Claus with his bag of candy, nuts and fruit was the closing and very important feature.
